## KAPIA

The mysterious adventure of a small girl and her grandfather in the funky apocalyptic world of KAPIA.

## Factsheet

Developer: 2FOR2 Based in Montenegro, Herceg Novi

Release date: 25 January 2022

Platform: PC

Website: [www.kapiagame.com](http://www.kapiagame.com)

## Description

Dive into funky universe of KAPIA to help Stefan and Reny on their adventure to solve the mystery of dome survivors. Play for both characters and uncover the origin of crisis that divided the world.

## Game Story

The World Union collapsed, the nations are divided into coalitions "East" and "West", a mysterious intelligent infection is forcing people to live under city lockdown. This is the world that needs saving. The world of KAPIA.

Amidst the chaos, Stefan, a retired pilot and a strong-willed grandfather, takes on the responsibility of ending the conflict. Little does he know his most powerful ally will be his little granddaughter, Reny.

## Features

### Controller or Point-and-click

A traditional point and click flow with an easily accessible drop-down inventory. To make things more exciting we also added a first-person close-up menu where you can interact with various items.

Or play KAPIA with your controller and enjoy a modern game flow from your couch.

### Play for both characters

People have different sides to them, and the same goes for characters in KAPIA. Discover the story from different perspectives as you play for both Stefan and Reny. Follow their own unique paths to achieve a common goal.

### Unique 3D design

KAPIA is a reimagined living museum. Enjoy a carefully crafted environment that suits the unusual combination of medieval architecture and futuristic gadgets. Intelligent robots walk the streets of manually carved stone, power banks light up antique lamps, and typewriters serve as input devices for powerful computers.

### Puzzles and mini-games

Logic and diversity was the key to our work on this most significant aspect of the game. Just like in traditional point-and-click most puzzles are tied up with objects, but there are also conversational puzzles and a whole bunch of logical mini-games.

### Voiced dialogues

We selected voice talents from all over the world based on their acting skills and they didn't disappoint. Each actor brought to the game a part of their own experience making the world of KAPIA truly multinational.

## Team

2FOR2 is a husband and wife team devoted to game development.

Anna: Concept, Writing, 2D/3D Artist, Marketing, SMM #AnnaMimik

Pavel: Design, Programming, Animation, Cameras, Sound Design
